

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Shirley Anderson on 9/22/08. Ms. Anderson agreed, in response to restrictions to:

Cancel claims 11-22

Election/Restrictions

2. During a telephone conversation with Ms. Anderson on 9/22/08 a provisional election was made without traverse to prosecute the invention of revising code, claims 1-10, which are classified in class 717, subclass 162. Affirmation of this election must be made by applicant in replying to this Office action. Claim 19 appears to refer to the revising/linking feature of claim; however, the feature appears to be more closely related to the renaming feature (rather than transferring resource between modules), which is typical of compilers in order to make source code executable. Therefore, claims 11-22, drawn to class 717, subclass 140 drawn to compilers are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.
